Nifty Noodles & Drones
Great Success!

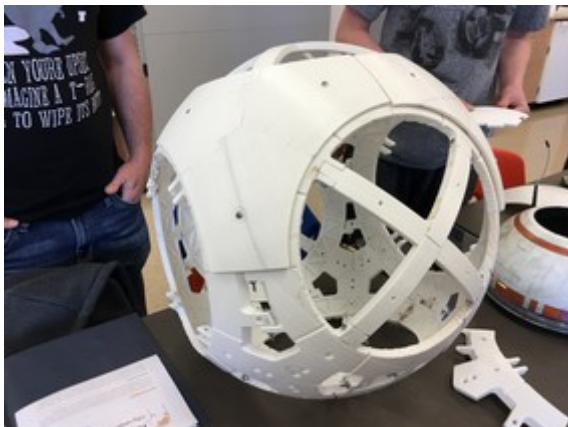

Created by John – KB3DFZ, **Nifty Noodles & Drones** was on display Saturday, April 8th at the Bedford County Technical Center as the Expo was a huge success. John showed off the latest technical, mechanical and electronic wonders of the 21st Century to over 40 visitors who observed the outside aviation activities and received a full tour of the BCTC building. Nifty Noodles & Drones acquainted young and old with computer circuitry, geodesic domes, 3D Printers, remotely operated helicopters and some amazing drones that can fly and take your

picture at the same time! Ham Radio. BCARS post cards were distributed throughout. BCTC Director, Dave Pasquale commented it was a very satisfactory event for the center and everyone seemed to have a wonderful time.

Hosts KB3DFZ & KC3EXR

During the event, remotely controlled helicopters took to the sky and performed back flips, outside rolls and other astonishing acrobatic feats. It was the hit of the show. Nick - KC3FXE arrived and performed his usual aerial photography magic by recording the entire event on his Drone -Mounted HD Digital Video Recorder. You can see Nick's work on BCARS Dot Com

Geodesic Dome made on a 3D Printer!
